

In re Appln. of Ullrich et al.
Application No. 09/600,826

BH'd
could

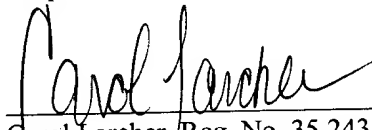

were then separated on a denaturing 5% polyacrylamide gel (7.5 M urea; 1 x TBE) and exposed on Xray film after drying (see Fig. 3). From this, the DNA sequences of the wild type and also of the mutation, were obtained.

REMARKS

The specification has been amended to identify sequence identification numbers 3-8. No new matter has been added by way of the above amendments.

The application is considered to be in good and proper form for allowance, and the Examiner is respectfully requested to pass this application to issue. If, in the opinion of the Examiner, a telephone conference would expedite the prosecution of the subject application, the Examiner is invited to call the undersigned attorney.

Respectfully submitted,

Carol Larcher, Reg. No. 35,243
